EDUCATION

Bachelor Of Computer Engineering
Shivajirao S. Jondhale College of Engineering

08/2019 - 07/2023   *8.28 CGPA*

H.S.C.
Sau. Laxmibai Jr. College

08/2017 - 04/2019   *65%*

S.S.C.
Indian Education of Society

06/2017   *75%*

PROJECTS

Face Mask Detection (2022 - 2023)
- Developed an application using Python with OpenCV, Scikit-Learn, and TensorFlow to detect face mask usage in public areas.
- Implemented machine learning algorithms to identify whether individuals are wearing masks.
- Monitored and analyzed mask compliance to support adherence to COVID-19 safety regulations.
- Enhanced public health and safety by providing real-time mask usage detection.

Blog Web Application (2024)
- Built a blog web application with a frontend developed using HTML, CSS, JavaScript, and React.
- Implemented user authentication and data management with Appwrite for backend services.
- Designed and integrated a responsive interface for a seamless user experience.
- Enabled dynamic content management including post creation, editing, and commenting features.

Weather Application (2024)
- Developed a weather application with an API-powered backend using React.
- Created a user-friendly interface to display real-time weather information.
- Integrated API calls to fetch and present accurate weather data.
- Ensured responsiveness and smooth performance across various devices. View Project.
